Software Terms.

(a) These terms have the following meaning for purposes of this "Software Terms" section:

- The term "Machine Code" means all software code provided for a Machine (including, without limitation, a Machine's firmware and microcode), excluding code that is licensed under a license agreement other than these Sales Terms. The term Machine Code specifically includes any whole or partial copy of Machine

Code, and any fix, patch, replacement, update or upgrade provided for Machine Code.

- The term "Machine" means a spectrometer sold by Ocean Optics subject to these Sales Terms. Machines are a subset of Products under these Sales Terms. Machine Code is deemed to be part of a Machine and is not a separate Product.

For clarity, this Software Terms section applies only to Machine Code provided with a Machine. Standalone software products are governed by their separate applicable software license agreements.

- (b) Acceptance of these Sales Terms authorizes the owner of a Machine, whether Buyer or its end user customer if Buyer is a reseller under a Distributor Agreement with Ocean Optics ("Authorized User") to use Machine Code with the specific Machine for which it is provided on a nonexclusive basis on, or in conjunction with, only the Machine for which Ocean Optics provided the Machine Code as necessary to only do the following: (i) execute Machine Code to enable the Machine to function according to its specifications; (ii) make a reasonable number of copies of Machine Code to be used solely for backup or archival purposes, provided the Authorized User reproduces the copyright notices and any other legend of ownership on any such copies; and (iii) to execute and display Machine Code as necessary to maintain the Machine. These rights will terminate when the Authorized User no longer possesses the Machine. Buyer is required to flow down the terms of this "Software Terms" section to its buyer contractually if Buyer is not the end user of the Machine it purchases from Ocean Optics.
- (c) Permitted use of Machine Code under subsection (b) immediately above is conditioned on the Authorized User not engaging in the following prohibited practices: (i) not copying, displaying, transferring, adapting, modifying, or distributing (electronically or otherwise) Machine Code, except as Ocean Optics may authorize in a Machine's user documentation or in writing to Buyer; (ii) not reverse engineering, reverse assembling, reverse compiling, or otherwise translating Machine Code, unless expressly permitted by applicable law without the possibility of contractual waiver; and (iii) not transferring the Machine Code to any third party separately from the Machine.
- (d) The Authorized User may transfer possession of Machine Code and its media to another party only with the transfer of the Machine for which that Machine Code is authorized as long as the Authorized User destroys any backup copies of Machine Code and provides the transferee with the specifications that accompanied the Machine and the terms in this "Software Terms" section.
- (e) Ocean Optics or one of its affiliates owns copyrights, patents and other intellectual property rights in Machine Code or has the right to license Machine Code. Ocean Optics or a third party owns all copies of Machine Code, including all copies made from them. Ocean Optics licenses Machine Code to only one rightful possessor of the Machine at a time.
- (f) Machine Code is provided on an as-is basis; no representation or warranty of non-infringement is made for Machine Code. Buyer may make a claim under the "Express Limited Warranties" section above if Machine Code does not permit the Machine to function according to its specifications and the issue is not a result of any modification of the Machine Code by an Authorized User or misuse of the Machine Code by an Authorized User. Such a Machine Code issue, given the Machine Code relates to the Machine, will be treated as a Product warranty claim under "Express Limited Warranties" above to the extent the claim otherwise meets the warranty terms of such section.

Export and Import Compliance. Buyer shall, at Buyer's sole expense, be responsible for strict compliance with all legal, regulatory and administrative requirements relating to the importation or exportation of the Products purchased under any Order or Distributor Agreement. Buyer shall comply with any applicable customs requirements and obtain any required licenses or approvals. Buyer shall pay all associated duties and fees. Upon written request to Ocean Optics, Ocean Optics shall promptly provide Buyer with all information and records relating to the Products necessary for Buyer to comply with any origin marking or labelling requirements, including copies of customs information and documentation. Buyer acknowledges that the Products are subject to the EAR, and that Buyer's export, reexport, or transfer of the Products may be subject to separate U.S. government authorization based on the proposed end-user, end-use, or destination. Buyer is strictly prohibited from directly or indirectly selling, reselling, exporting, reexporting, or transferring the Products to (i) any individual or entity that is restricted by applicable International Trade Laws or that is otherwise identified on a denied parties list, including persons identified on the OFAC Specially Designated Nationals and Blocked Persons List ("SDN List"), the U.S. Department of Commerce's Bureau of Industry and Security Denied Persons List or Entity List, or any other similar U.S. government list; or (ii) any country or jurisdiction that is subject to comprehensive U.S. sanctions, export restrictions, and/or embargoes, including Cuba, Iran, North Korea, and the Crimea, Donetsk, and Luhansk regions of Ukraine. Failure to comply with this provision will constitute a breach of these Sales Terms.

- (a) Comply with all applicable laws, regulations, codes and sanctions relating to anti-bribery and anti-corruption including, but not limited to, the local and national laws in the territories in which it operates, the UK Bribery Act 2010, the U.S. Foreign Corrupt Practices Act of 1977, and the United Nations Convention against Corruption.

- (g) Immediately inform Ocean Optics if it suspects or becomes aware of any breach of this Section by one of its employees, subcontractors, agents, consultants or other intermediaries and provide detailed information about the breach.

Indemnification. To the maximum extent allowed by law, Buyer shall defend and indemnify Ocean Optics and its employees and agents against all sums, costs, liabilities, losses, obligations, suits, actions, damages, penalties, fines, interest and other expenses (including investigation expenses and attorneys' fees) that Ocean Optics may incur or be obligated to pay as a result of: (a) Buyer's negligence, use, misuse, ownership, maintenance, transfer, transportation or disposal of the Products; (b) Buyer's violation or alleged violation of any Federal, state, county or local laws or regulation, including without limitation, the laws and regulations governing product safety labeling, packaging and labor practices; or (c) Buyer's breach of a Distributor Agreement, Order or these Sales Terms.

LIMITATION ON OCEAN OPTICS' LIABILITY. NEITHER OCEAN OPTICS NOR ITS AFFILIATES SHALL HAVE ANY LIABILITY FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, INDIRECT, PUNITIVE OR EXEMPLARY DAMAGES FOR ANY REASON OR UNDER ANY THEORY OF LIABILITY WHATSOEVER, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS, LOST PROFITS, BUSINESS INTERRUPTION, OR OTHER PECUNIARY LOSS, EVEN IF OCEAN

OPTICS OR ITS AFFILIATES HAVE BEEN MADE AWARE OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

Upon Ocean Optics' request, Buyer shall provide Ocean Optics with a certificate of insurance from Buyer's insurer evidencing such insurance coverage. The certificate of insurance shall name Ocean Optics as an additional insured. Buyer shall provide Ocean Optics with 30 days' advance written notice in the event of a cancellation or material change in Buyer's insurance policy. Except where prohibited by law, Buyer shall require its insurer to waive all rights of subrogation against Ocean Optics' insurers and Ocean Optics.

Force Majeure. Ocean Optics shall not be responsible for any delay in or impairment of performance resulting in whole or in part from fire, floods or other catastrophes, acts of God, strikes, lockouts or labor disruption, wars, riots or embargo delays, government allocations or priorities, raw material market conditions, shortages of transportation equipment, fuel, labor or materials, inability to procure supplies or raw materials, severe weather conditions, epidemics and pandemics, or any other circumstance or cause beyond the reasonable control of Ocean Optics, including any such circumstances or causes affecting Ocean Optics' suppliers, subcontractors, or any third party upon whom Ocean Optics depends for the fulfilment of its obligations under any Distributor Agreement or Order. Any claim for adjustment not asserted within 90 days from the date of such termination shall be considered waived by Buyer.

These Sales Terms, together with the Order or Distributor Agreement, if any, make the complete and final agreement between Ocean Optics and Buyer, and supersede all prior negotiations, proposals, representations, commitments, understandings or agreements between Ocean Optics and Buyer, either written or oral, on its subject. Any other representations or warranties made by any person, including employees or other agents of Ocean Optics, that are inconsistent with these Sales Terms shall be disregarded by Buyer and are not binding upon Ocean Optics.

Modifications. No Order nor these Sales Terms may be modified or amended except in writing signed by both Ocean Optics and Buyer specifically referring to the applicable Order and/or these Sales Terms.

Waiver. Ocean Optics' failure to insist on performance of any of the terms or conditions in these Sales Terms or to exercise any right or privilege, or Ocean

Optics' waiver of any breach of these Sales Terms shall not waive any other terms, conditions or privileges, whether of the same or similar type.
